WIFI router types	Default username	Default password

Step 1: check "Analysis + Boost"

Step 2: Click boost button

Step 3: Analysis start.

Pay attention to the dotted line in grey, It is the target channel

Step 4: Check the notice asking for username and password

<u>Step5</u>: Input your username and password.

Step 6: Boost finished. You can see the WIFI moves to a new channel (like 6->1).
